## RODRIGUEZ

DEGREE IN BIOTECHNOLOGY

### ABOUT ME

Hi, I am Mariana  
I am an Argentinian who emigrate to Europe following my heart and new adventures. From 2013 to 2017, I worked as a Laboratory technician learning every stage of the tissue culture process at Biovida in La Rioja, Argentina. 2014 I attended a workshop on Techniques of Plants Tissue Culture and Healthy Seedlings at the Chaoyang University of Technology, Taichung, Taiwan. In 2018 I worked as a laboratorian technician producing ornamentals plants at Boereboom Invitro Cultures, Portugal. From 2020 to 2021, I followed my other passion, the environment. Therefore I studied a postgraduate in Energy and Climate at Antwerp University, which led to an internship in Negative Emissions Technology (NETs). Currently, I am working as a project manager at Boereboom Invitro Portugal.
